

Thank you to the, High Impact Furniture Sales team. They have increased my total number of tickets, increased ticket totals, fixed my gross margins, and total sales revenue. The training provided to my sales team and myself has already improved my team's confidence resulting in a higher close ratio and bigger commissions for my sales team. Any issues along the way High Impact Furniture Sales has attacked and resolved quickly. Even when the U.S. Post Office, failed to send out our mailers. Tim the sales manager was immediately at the Post Office and the lost mailers where found and mailed. He even followed up with the post office to ensure the problem didn't re-occur going forward. I have only good things to say about the professionalism of the entire High Impact Furniture Sales team. If it was not for them my business would probably be closed. They are my saviors.
