Enterprise, OR. 97828

To whom it may concern,

After talking with many promotion companies regarding running a sale with our store, we decided to hire MC Jensen & Associates. I had checked references and talked with other store owners regarding their experience with MC Jensen & Associates and everything was positive. In the first meeting with Mike, he gave us projections and promised us what he thought was the best crew in the industry.

I have to say that we have exceeded his projections and I couldn't imagine a better manager and sales people any ware. They are the most professional, hardest working people I have ever worked with. Each week we have sold well above our monthly average and our advertising is well below what was projected. I would have no problem recommending the services of MC Jensen and Associates to any store in need of assistance.

Sincerely

Jack Norton
