To High Impact Furniture Sales
From River City Furniture
Subject Letter of Recommendation

We had another promoter come in and work with our store. The job did not get done. One of our manufactures encouraged us to work with your company to clean up the mess and payables.

You and your company came in and get everything cleaned up. You did not leave us high and dry like the other promoter and the event came in under budget.

Your company was great to work with and you were very flexible. Thanks for your help. I would encourage anyone who needs help to contact you.

Sincerely

Keith Hearden
