

To whom it may concern I work at Arizona Furniture in Kingman,Az my boss had decided to bring in HIFS to revamp the store and our sales as well and while doing so the store and myself has seen great rewards from inviting them in!!!! My checks were only around \$440.00 per week now they have not only doubled but tripled in just the short amount of time that they have been with us. This company is a true joy to work with not only am I learning new things,but also making life long friends in the process which is a reward all in itself. I love the fact that when they came in they didn't bring in a bunch of sales people to flood the floor they are more then fair and honest not to mention they care about us as a company just as much as they do their own company. I highly recomend this company to any store be it going out of buisness or just to bring up your numbers and help accomplish your sales goals,Tim and Magda have made a great impression on me aned I know on the company I work for,it was truly the best decision the Owner of Arizona Furniture has made in my opinion,and Im sure in his opinion as well.We are hoping when there time is done here they will return and work with us again in the future!!!!!!!!!!!!

Grateful Sales Associate,

Tina Wright
